Introduction

The Emergency Plan for the Township of Moonbeam has been developed to reflect the public safety requirements of our community. The effective use and maintenance of this plan is reliant upon all concerned being aware of its provisions and prepared to fulfill their roles and responsibilities in the event of an emergency. Responsible individuals, are expected to participate in emergency training, and exercises which will assist them in the fulfillment of their roles accordingly.

The heads of departments and agencies are expected to develop their own internal notification lists, procedures and contingency plans to fulfill their departmental or agency responsibilities.

Together we work to ensure that our community is prepared to respond to an emergency in the most effective manner possible.

Aim

The Aim of this plan is to protect the health, safety, welfare and property of our citizens, from the effects of a natural, technological or human caused emergency.

2.1 **Emergency Operations Centre Procedures (EOC)**

The Emergency Operations Centre (EOC) has both a primary and a secondary or alternate location. During the notification process, direction as to which location members of the CCG will report to, will be given. For example, members will be told that "this is an emergency plan activation" and that they should report to the primary Emergency Operations Centre immediately. The primary and secondary locations are geographically separated so that if one or the other is endangered or rendered non-functional as a result of the emergency situation the other should be safe and operational.

Primary EOC Location; Township of Moonbeam Municipal Office
53 St-Aubin Avenue.

Alternate EOC Location; Township of Fauquier Municipal Office
25 Grzela Road.

Upon receiving notification the Clerk/Operations Officer will contact the administrative staff who have been assigned the task of setting up the EOC. The EOC will be set up and operational within one hour of activation. The Operations Officer will supervise the set up and ensure operational viability.

Upon arrival at the EOC, each CCG member/designate will;

- a. Sign In
- b. Check telephone/communications devices.

- d. Contact their own agency and obtain a status report.

Once the initial response is established, routines are put into place by the Operations Officer. The CCG functions most efficiently on a system known as an Operations Cycle.

2.2

Operations Cycle

An operations cycle is how the Community Control Group manages overall emergency operations. Community Control Group members will come together usually around a planning board or map at which time they will in turn report their agencies' status to the Mayor and Operations Officer. It is essential that every member, covering each area of responsibility, be heard from during this process. The Community Control Group is a team, and the actions taken by one, or the lack of action by one, may have a significant impact upon operations.

The round table discussion should include problems, questions, resources requests and any other relevant information so that timely informed decisions can be made as a group. Once the meeting is completed, the members should contact their agencies' and pass on any relevant information or directives that come out of the Control Group meeting. The frequency of the meetings are determined by the Operations Officer in conjunction with the Mayor, but should reflect the pace of the emergency and occur on a scheduled basis which may be adjusted accordingly.

During the period after the meeting and dissemination of information, members will be in the process of gathering information and preparing for the next scheduled meeting. The Community Control Group members use this time to follow up and ensure that Control Group decisions are being implemented. Each member is responsible for informing their respective agency of the schedule for CCG meetings. No calls are supposed to interrupt the proceedings. All calls must occur prior to or after the formal meetings of the Community Control Group.

It is essential that the Emergency Operations Centre is comfortable, has good communications and is secure from unnecessary distractions. Only Community Control Group members, and support staff should have access to the Emergency Operations Centre. No media are allowed into the Emergency Operations Centre, nor is anyone who has not been authorized by the Operations Officer.
